¹ A *changing mission need* is defined as a change of context for an individual ministry, congregation or organization in which such entity feels it necessary to create a new mission start to respond to the changes. Eg: a change in ethnic demographics or growth of population in a particular area lacking current LCMS ministries or congregations.

² Kingdom growth is defined as souls won for Christ: those who did not previously know or have not recently been living in the salvation of Jesus Christ (unchurched and dechurched).
